

IEEE Latin America Transactions

FEBRUARY 2022, Volume 20 Issue 2

IEEEXplore, DOI, ISI, ISSN 1548-0992

Table of Contents	189
An Intrusion Detection System for Web-Based Attacks Using IBM Watson R. C. C. da Silva, M. P. de O. Camargo, M S. Quessada, A. C. Lopes, J. D. M. Ernesto and Kelton A. P. da Costa.....	191
Using of i*(iStar) 2.0 for Improving the use Cases Derivation B. L. Casarotto, G. C. L. Geraldino, V. F. A. Santander, I. F. Silva and M. A. T. Cespedes.....	198
Rot Corn Grain Classification by Color and Texture Analysis G. V. B. Silva and F. C. Flores.....	208
A Convolutional Neural Network for Learning Local Feature Descriptors on Multispectral Images C. F. G. Nunes and F. L. C. Pádua.....	215
Neural High Order Sliding Mode Control for Doubly Fed Induction Generator based Wind L. Djilali, A. Badillo-Olvera, Y. Yuliana Rios, H. López-Beltrán and L. Saihi.....	223
Generation of Real Datasets for Network Simulations M. S. Quessada, D. D. Lieira, R. S. Pereira, E. N. Gottsfritz and R. I. Meneguette.....	233
Optimization of Reclosers Placement in Distribution Networks to Improve Service Quality Indices G. A. Gastelbondo and J. W. González.....	241
Modelling and Forecasting for Solar Irradiance from Solarimetric Station B. K. Fontes, M. Gomes, A. M. O. Santanna, D. Barbosa and L. Martinez.....	250
Rate of Change of Active Power as a Power Swing Blocking Function of Distance Relays C. Lazaro, G. Marchesan, G. Cardoso Jr., L. F. Freitas-Gutierrez and A. P. Morais.....	259
Transient Analysis of Grounding Electrodes in Multilayer Soils using Method of Moments A. R. J. Araujo, J. S. L. Colqui, W. L. M. Azevedo, S. Kurokawa J. P. Filho and B. Kordi.....	269
Dual-Band Impedance Matching using Folded Stubs Composed of Periodic Structures A. G. Sahu, V. B. Ribeiro, V. H. C. Gerólamo and M. S. Gonçalves.....	276
Computer System Integrated with Digital Models for Reconstruction of Underwater Structures with High Definition L. P. Nardy, O. R. Pinheiro and H. A. Lepikson.....	283
Observer-Based PD Controller for a Class of High Order Linear Unstable Delayed Systems G. Duchen, B. del Muro, J. F. Marquez, M. Velasco-Villa and M. A. Hernández.....	291
Metrics Proposal to Measure the Quality of Governmental Datasets M. R. Martínez, R. A. Rodríguez and P. M. Vera.....	301
Trajectory Planning or Car-Like Robots Through Curve Parametrization and Genetic Algorithm Optimization with Applications to Autonomous Parking R. P. Vieira, E. V. Argento and T. C. Revoredo.....	309

Simulation Tool for Hybrid AGVs based on IEC-61131 V. Ruiz and J.E. Sierra-García.....	317
Intelligent Electrical Pattern Recognition of Appliances Consumption for Home Energy Management using High Resolution Measurement F. Ulloa-Vásquez, L. García-Santander, D. Carrizo and V. Heredia Figueroa.....	326
Transient Stability Constrained Optimal Power Flow Applied to Distributions Systems with Synchronous Generators D. M. B. de Siqueira, R. Kuiava and T. S. P. Fernandes.....	335
Towards the Categorization of Brazilian Financial Market Headlines M. Schmitz, R. Immich, G. Pessin and G. P. R. Filho.....	344
Evaluation of the Lightning Performance of Transmission Lines Partially Protected by Surge Arresters Considering the Frequency-Dependent Behavior of Grounding F. M. de Vasconcellos, R. Alipio and F. A. Moreira.....	352
